

# Gender Pay Gap Report 2022

Irish Country Meats ("ICM") is the largest sheepmeat processor on the island of Ireland, with state-of-the-art production facilities in Camolin Co. Wexford and Navan, Co. Meath. ICM is part of the ABP Food Group.

ICM is pleased to present its inaugural Gender Pay Gap Report in accordance with the Gender Pay Gap Information Act 2021.

For this report, the snapshot date was 30<sup>th</sup> June 2022.

ICM's talented and committed workforce is crucial to our ongoing success. In all areas of our business, we seek to employ people who are passionate about their area of expertise and who seek to deliver the highest standards.

ICM operates in the agri-food and meat industry which has a long history of underrepresentation of women. Of the relevant employees reported 73% are male & 27% are female.

ICM promotes a culture of diversity and inclusion, including through its support of and engagement in strategic partnerships, such as Women in Meat Business and its membership of Bord Bia's Agri-Food Diversity & Inclusion Forum. We promote annual events from mental health awareness to International Women's Day.

ICM is an equal opportunities and an equal pay employer. Females operating in our processing plants are paid the same basic salary and variable pay rates as their male colleagues undertaking the same duties.

## Female Management

Females play an integral role in the operational and strategic performance of ICM with females accounting for 40% of ICM Senior Management.

## Meat Business Women

ICM is affiliated with Meat Business Women, a Global Professional networking movement for progressive women working across the meat industry.

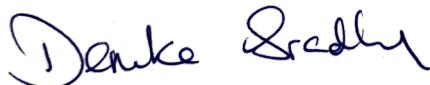

## Career Progression

ICM positively promotes career progression to all and is committed to ensuring that women have access to the same opportunities as their male counterparts throughout the organisation. ICM is committed to raising awareness about female equality and supporting, nurturing and developing female talent across our business. To embed this practically we have launched a new performance and talent management program STRIVE. Through this vehicle we can identify, support and champion female talent and monitor progress.

## ABP She

As part of the ABP Food Group, ICM is an active participant of the ABP She programme. This program was launched in September 2022 with the aim of supporting and identifying female talent within ABP's Irish operations. It offers a range of practical supports to female colleagues alongside mentoring programs and celebrating female role models across all of ABP's operating sites.

I confirm that the information and data reported is accurate as at the snapshot date of 30<sup>th</sup> June 2022.
